Standard Oil Extra Dividend of \$2.50

McAdoo Declines All Invitations to Be Entertained

The Standard Oil Co. of California declared an extra dividend yesterday of \$2.50 per share, payable on Liberty Loan 4 1/4's.

Any dividend less than \$50 and dividend amounts in excess of \$50 or multiples thereof will be paid in cash.

Standard Oil Dividend

Director General McAdoo has declined all invitations to appear at public functions during his visit on the Pacific Coast. His time, with the exception of that spent in the Yosemite, is taken up with business connected with the railroad. He is accompanied by Mrs. McAdoo.

Girls to Take Jobs at S. O.

Women and girls will do overalls and work in the white oil department of the Standard Oil Co.'s works in Richmond. The wage scale is said to be exceptionally good.

See Lauffer's advertisement about our vision.

Kaiser Bill Don't Like to Hear About "Liberties"

The Third Liberty Loan yielded \$4,170,019,650, subscribed to by about 17,000,000 buyers. Secretary McAdoo congratulates the country on the result, which he says is "irrefutable evidence of the strength, patriotism, and determination of the American people."

Don't "Peddle" Your Liberty Bonds

The American who buys a Liberty Bond and forthwith sells it has performed only half a service for his country. To buy bonds and then sell them immediately tends to make the war burden of the country heavier instead of lighter, as it decreases the market value of the bonds.

Liberty Bonds are the safest and soundest and one of the best investments in the world. To sell them unless imperatively required is not good business, is not good Americanism.

Pat O'Brien

Pat O'Brien is in town and is being greeted by many old friends who knew him as a Santa Fe fireman. He is resting his vocal organs, excessive speech-making requiring a lay-off for repairs.

O'Brien will be the honored guest of Alpha Lodge of Masons.

Chas. R. Brown Here From Yale

The Rev. Charles R. Brown, dean of the school of religion at Yale University and former pastor of the First Congregational Church in Oakland, has returned to California for a series of lectures. He will speak under the auspices of the National Security League at the University of California, Stanford University and the University of Southern California.

Dr. Brown will be in this state for two months. Several of the Western military camps are on his itinerary, and he will also deliver several sermons from his former pulpit in Oakland.

Albany Man Killed At County Line

(Albany Argus)

Fred Battersbee, a millwright living in Albany, was instantly killed when he was struck by an auto driven by a colored man, A. D. Smith, of 7th St., Oakland. The accident occurred at the county line shortly after eleven o'clock Fourth of July night.

Battersbee stepped to the street to board a street car, when he was struck down by the machine. He was standing on the Alameda side of the line when he was struck, but was thrown to the Contra Costa side, where he died within a few minutes.

Battersbee was thirty-five years of age and was unmarried. He lived with his sister, Mrs. D. Horrigan, in South Kains Ave., Albany.

Base Hospital 47 May Land Today

Among the Contra Costa boys who enlisted with Base Hospital No. 47 and are now within a day or two of France, are Captain Clark L. Abbott, Forrest F. Winfree, George Harlow, Chas. C. Hedges, Neville E. Smith, Roy F. Mouck, Bayard B. Lang, Sidney E. Ryan, Roy Adams, R. A. Winfree, Henry Schmidt and Frank A. Carlson, all of Richmond.

Cliff Allen Here

Lieutenant Cliff Allen, 2d Co. 4th O. T. C., Camp Fremont, came over Sunday to visit friends, and especially his best girl.

An interesting letter will appear in the next issue of The Terminal from the "spruce" soldiers in Washington.

ing on the Alameda side of the line when he was struck, but was thrown to the Contra Costa side, where he died within a few minutes.

Battersbee was thirty-five years of age and was unmarried. He lived with his sister, Mrs. D. Horrigan, in South Kains Ave., Albany.

Passing of T. H. Moore, Native of Missouri

The passing of Thos. H. Moore, the well known Richmond citizen, at Roosevelt hospital, following an operation for appendicitis, Wednesday night, was a shock to his friends in Richmond, many of whom did not know he was ill.

Deceased was a native of Missouri and had lived in Richmond nine years. He was 64.

Funeral services will be held tomorrow from Masonic hall, Alpha Musons, of which order he was a member, having charge.

Political Jottings

A political promise looks better labeled: "Paid for in advance."

"When a feller needs a friend"—when he's out for office.

Less partisanship and more patriotism is undoubtedly one of the marked tendencies of politics.

They say up around Pinole that O'Connor, candidate for assembly, is "going strong."

The scurrilous political report that Zeb Knott is a "longhair" is untrue. Take a look at Zeb's dome and be convinced.

Long-winded historical (or hysterical) sketches of candidates in this column are forbidden. Printers are scarce and paper is high.

"Certain candidates," said a local newspaper man, "will have to pass out a different brand of smokes if they want me to whoop it up for them."

Al. Browning should have an easy race for constable, as there is no "noise" to speak of elsewhere. Al is a good campaigner, and never fails to appreciate that helpful article, printer's ink. He is the right man for constable.

A number of candidates' names are omitted from this column today for the reason it is not definitely known they're running. From the noise our job presses are making day and night printing cards, we are convinced there are a few "live ones" in this territory.

There will be three candidates for the assembly from Contra Costa county who will test their strength and popularity at the polls August 27. The third candidate in the field is said to be a man by the name of O'Connor of Pinole. The name "O'Connor" listens well—in fact, Calahan is not the only "Irishman" in the swim.

Bert Curry is not a fierce fellow, as his picture would indicate. Bert is a good looking, "much different" from his pictures. He had those late ones taken for "advertising purposes."

Richmond Has Many Industries

The Pullman Co.'s grounds are filled with coaches which are sidetracked there for repairs and renovating. Many of the coaches have carried U. S. troops across the continent and bear the marks of the boys whose hieroglyphics in white crayon cover the sides of the cars with autographs and comments on the Kaiser and how they are going to "get him."

It is said the output of the Stege cap works has more than doubled in the past six months. The Stauffer chemical works also do a large business in their line, wartime demands keeping a large force busy day and night. Stege is fast developing into an industrial center of no small proportions.

The Western Pipe and Steel Co. is working double shifts and cannot keep up with their orders.

Mrs. Reed of Los Angeles is visiting her daughter, Mrs. Walter M. Bullock.

Thrift stand booths will be installed at various places on Macdonald avenue.

Draft Boards Explain Soldier-Insurance Law

Soldier Has Only One Chance in 29 of Being Killed

Great as the danger and large as the losses in the aggregate, the individual soldier has plenty of chances of coming out of the war unscathed, or at least not badly injured.

Based on the mortality statistics of the allied armies, a soldier's chances are as follows:

Twenty-nine chances of coming home to one chance of being killed. Forty-nine chances of recovering from wounds to one chance of dying from them.

One chance in 500 of losing a limb. Will live five years longer because of physical training, is freer from disease in the army than in civil life, and has better medical care at the front than at home.

In other wars from 10 to 15 men died from disease to 1 from bullets; in this war 1 man dies from disease to every 10 from bullets.

For those of our fighting men who do not escape scathless, the government under the soldier and sailor insurance law gives protection to the wounded and their dependents and to the families and dependents of those who make the supreme sacrifice for their country.

Men in Service to Be Shown Advantages of Government's Protection

Secretary McAdoo has called upon all local draft boards to acquaint drafted men with the provisions of the soldier-insurance law and to urge every drafted man to take out this insurance. The boards have been furnished with literature to aid them in this educational work.

The law affording insurance to our fighting forces has well been called the most just and humane provision ever made by a nation for its soldiers and sailors. The government and the American people recognize the justice of affording this protection to the men who risk their lives for their country and to their families and dependents at home. It is only just to themselves and to their families and dependents that our fighting men avail themselves of this opportunity.

Every American enlisting should take out this insurance and carry with him into danger the heartening knowledge that whatever happens, himself and his dependents are protected by his government.

"LITTLE TERMINALS"

Inspector Robert Kirkpatrick of the police department says he is now a Benedict—and has been for several months. We're from, Missouri, Bob.

Tom Marks, the well known barber, is feeding gasoline to a new Jeffries-six. Tom drew this \$2600 car with a \$1.00 ticket given him by a customer now in Siberia.

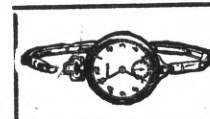

Marshall LaPierre, the 2d street barber, has moved two doors east, and now has more room. His place is as neat as a new pin.

"Now You See It; Now You Don't"

A good story is told on a Richmond jitney man who found a lost tire on the highway near Milpitas. He stopped his car to pick up the tire, when some small boys who were "camouflaged" in the bushes pulled the string and the tire disappeared.

The Terminal is on file in all the public libraries in Contra Costa county and has hundreds of readers.

The Gasoline of Quality

Novel Exhibition on the Oakland Estuary Given by Richmond Inventor

Captain George Bray demonstrated his new life-saving suit in the Oakland estuary the Fourth, his course being from the foot of Broadway to the Franklin street draw bridge.

It was a novel as well as spectacular scene to see the Captain floating leisurely along, reading The Terminal and smoking a Richmond cigar, "paddling his own canoe." It is estimated that 8000 persons witnessed the exhibition

from the estuary bridge and along the shore line.

A motion picture company is negotiating with Captain Bray to shoot the Cascade Falls at the Dalles, Oregon. This will be a more hazardous feat than shooting the Niagara rapids, which Bray accomplished several years ago.

Captain Bray will receive a large sum for making Cascade Falls if successful.

A FEW FACTS ABOUT CALIFORNIA

California is the foremost state in the Union, agriculturally and from a manufacturing standpoint, is the news brought back from an eastern visit by John R. Millar, president of the California State Manufacturers' Association.

We can manufacture anything that is manufactured, any place, declared Mr. Millar, excepting steel—and that is of unusual significance at this time when the country is being divided into zones for home consumption of home industries.

We lead in agriculture and while we in California have not the volume of business in manufactures, as some individual states in the Union enjoy, we are now working to capacity in every industry and approaching augmentation even beyond our own fondest hopes of a few years ago.

We can turn out more efficient workmen than any other state insofar as our climate is better and makes for efficiency, because of its uniformity. We have neither the extreme heat with demands for ice nor the extreme cold with pressing demands for fuel or inertia as an alternative if we suffer a coal famine. California farmers are the most fortunate persons in the world and so is the California manufacturer.

In cotton, for instance, we are beginning to make the cotton trade of the world sit up and take notice and our possibilities for silk are also wonderful. California cotton is used only in the manufacture of California cotton goods and when I state that the output of cloth, yarn, thread, canvas and other kindred articles are contracted for two years ahead and that we shall use in the California Cotton Mills alone \$15,000,000 worth of raw cotton this year as compared with \$14,000,000 in 1929, some idea of the volume of this industry may be gained and its appeal both to the cotton raiser and the manufacturer will not doubt be far-reaching and effective. California is in need of 100,000 skilled laborers right now.

I intend putting an educational exhibit in the Pacific Coast Land and Industrial Exposition—a tiny cotton field and loom that Californians may learn to know and appreciate one of their best assets. We shall have cotton pickers, and a loom which will turn out finished material.

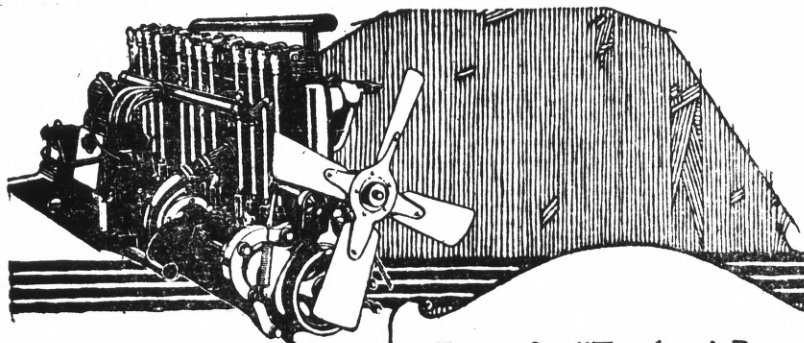

Mr. Millar is one of the board of directors of the Pacific Coast Land and Industrial Exposition, which will open in Oakland September 9th and continue until October 6th.

Correct Lubrication for the Valve-in-Head Type Engine

Our illustration shows a typical Valve-in-Head type engine—one of the several types of automobile engines popular today. Engines of this type, like all internal combustion engines, require an oil that maintains its full lubricating qualities at cylinder heat, burns clean in the combustion chamber and goes out with exhaust. ZEROLENE fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

ZEROLENE is made in several consistencies to meet with scientific exactness the lubrication needs of all types of automobile engines. Get our "Correct Lubrication Chart" covering your car. At dealers everywhere and Standard Oil Service Stations.

Experts Say, "Zerolene is Better"

Why are the majority of cars now lubricated with ZEROLENE? Because—ZEROLENE does hold better compression, does give better protection to the moving parts, does deposit less carbon. And this is the testimony of the leading automobile distributors of the Coast.

They know from the records of their service department—and we know from exhaustive tests—that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

Send the Soldier Boys Your Home Newspaper

Overseas, where American soldiers are facing the enemy, a letter from home is most welcome. It is the strongest home tie. It helps to keep the morale of the American soldier at the topmost point. Next in point of importance is the old home newspaper. From this he learns what is happening among his friends. It is most important that the home newspaper should follow him across the seas.

Persons who wish to get this work of cheer to the boys from this community may do so by subscribing to this newspaper and having it addressed to the American Y. M. C. A., 12 Rue d'Amuseau, Paris, France. The national war work council of the Y. M. C. A. will see that the paper is forwarded to the soldier at the front. It will be sent to a camp where boys from this state are stationed.

War work secretaries in Y. M. C. A. huts overseas state that the hardest thing they have to combat is homesickness. The lads are yearning for news from their loved ones. The letter is first in importance, the old home newspaper fills the void in the absence of the letter.

You can help to maintain the morale of the American troops in France by sending him this paper. Think it over.

After due view of our spirit on do but he say, an eye—I giving to you the old and a new. I filled 'cause you all right said do most in eat supper the last I on for get out of all game bag on make it work, too," he said. Den he look a big fish and say, see ee, "thoot—thoot—thoot—thoot," and see. When he say dat he means dat when you all make via his out a don't make 'em—one corn meal can have wheat flour for de sogra.

Capital and Labor Are Now One Harmonious Family

George W. Perkins of the United States Steel Corporation is one of the leaders who has the courage to take advanced positions toward industrial problems.

He sees that the new relation of capital and labor is predicated upon the relationship of man to man, to use his expression, and not on the old individual struggle.

He forecasts a period of co-partnership where capital and labor will share more equitably in the profits of the business in which they are jointly engaged—"tool-user will be in part tool-owner," Perkins says.

By profit-sharing he does not mean giving laboring men a fat turkey for Thanksgiving for a fat newspaper notice for the proprietor of the industry. Most corporations have passed that point.

He says profit-sharing must be based on the earnings of the business, "with a fair percentage to capital and a fair percentage to labor after ordinary wages and interest have been earned."

Men like Perkins and Judge Gary have set the employers in large industries a fine example of what open books and laying their cards on the table in the great game of capital and labor will accomplish.

Charles Schwab Is Strong With the Working Classes

Charles M. Schwab, representative of the U. S. Emergency Fleet Corporation, who spoke at the Greek Theatre Sunday, made the hit of the big meeting and received an ovation he will never forget. Schwab is a comedian, and tells some good stories, reciting them off like Billy Sunday or Lew Dockstader. Schwab was the last speaker on the program, and his predecessors all had manuscript from which they read their speeches. He said they could not put anything "over" on him, so he also pulled several sheets of manuscript from his coat pocket, but apologized by saying that the fellow who wrote it was sitting back of him on the stage, following up his statement by handing the manuscript to him, saying that he would "go it alone," that the speech did not "fit." This called for tumultuous applause from the 12,000 audience. And how Charlie did recite it, story after story, keeping his audience hilarious for fully thirty minutes. There is only one Schwab. He is one of our biggest and best men, and a plain, ordinary fellow, with the pep and ability to do big things at the right time.

The International Typographical Union has 3000 members in actual war service. Of this number 75 have given their lives in action and others are wounded. More than \$22,350 has been paid to relatives of those killed. Members have invested more than \$20,000,000 in bonds, besides the International has invested \$90,000. There are no strikes, because the printers and employers are one harmonizing family who settle their differences by arbitration and intelligence.

Paper money is not "popular" with some, who complain that it is easily lost. Californians are partial to the yellow metal, and there is a reason. There are a number of tricks played by the nimble fingered gentry in making change with paper money or currency. One is to fold the bills so that in counting there appears to be double the amount. This is successfully worked in crowded places where persons are in a hurry. Insist that the bills should be "ironed" out their full length and that they do not stick together.

We are really becoming unselfish. Think of this: The diamond-shaped sign on the shield of an automobile signifies an invitation to any one in U. S. uniform to a free ride, providing there is room. After while, as we progress, the fellow who comes along with a large empty car may ask an ordinary civilian to "hop on" and take a ride.

Solicitations for war requirements should be made by responsible persons, and not by those who imagine they have received the "call" and do not understand or realize the importance of the authority they are assuming.

NOTICE OF SHERIFF'S SALE.

No. 89692. Dept. No. 4.

In the Superior Court of the State of California, in and for the City and County of San Francisco.

Theodore Paxinos, Plaintiff, vs. Eleni Zervas, Kyriagos Dounetas, Defendants.

Under and by virtue of a Writ of Execution issued out of the Superior Court of the City and County of San Francisco, State of California, on the 14th day of June, 1918, in the above entitled action, wherein THEODORE PAXINOS, the above named plaintiff, obtained a judgment against ELENI ZERVAS, on the 14th day of June, 1918, for the sum of \$335.05, which said judgment was on the 14th day of June, 1918, recorded in Judgment Book 118, of said Court at page 359, together with the costs of suit and interest, all in United States Gold Coin, I have this day levied upon all the right, title, claim and interest of Eleni Zervas, one of said defendants, of, in and to the following described real estate, to-wit: Situate, lying and being in the County of Contra Costa, State of California, and bounded and described as follows, to-wit:

Being Lot Number 57 in Block Number 167 as delineated upon that certain Map entitled "Wall's Addition to the City of Richmond," being a portion of Lot 59 of the final partition of the San Pablo Ranch, Contra Costa County, Cal., Surveyed and delineated by E. J. Morser, C. E., February, 1909. Recorded on the 22nd day of March, 1909, in the office of the County Recorder of the County of Contra Costa, State of California. PUBLIC NOTICE IS HEREBY GIVEN that I will, on the 6th day of August, 1918, at 11 o'clock A. M. of said day, in front of the Court House door, in the City of Martinez, County of Contra Costa, State of California, for United States Gold Coin, all the right, title, claim and interest of said defendant, ELENI ZERVAS, in and to the above described property, or much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs of suit, etc., to the highest and best bidder.

R. R. VEALE,
Sheriff of the County of Contra Costa, State of California.
Dated July 10th, 1918.
July 12-19-26

SUMMONS.

In the Justice's Court of First Township, County of Contra Costa, State of California.

A. E. Blum, Plaintiff, vs. Walter Sutton, Defendant.

The people of the State of California send greeting to Walter Sutton, Defendant.

You are hereby directed to appear before me at my office at Martinez, California, in said township, and answer the complaint in an action entitled as above, brought against you in the Justice's Court of First Township, County of Contra Costa, State of California, within five days after the service on you of this summons—if it is served within the city and county, township or city in which this action is brought; but within ten days, if it is served out of said township or city in the County in which the action is brought; and within twenty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or will apply to the Court for the relief demanded in the complaint.

Given under my hand this 2nd day of April, 1918.
R. L. BOYER,
Justice of the Peace of said Township.

J. E. Rodgers and A. P. Bray, Attys for Plaintiff, Martinez, Cal.
(First Pub. May 31; Last Aug 2)

NOTICE TO VOTERS

A new and complete registration of voters is required by law during the year 1918.

Registration closes, for the purpose of voting at Municipal Elections, in town of the Sixth Class, on March 2, 1918; for the purpose of voting at August Primary Election, on July 27th, 1918; for the purpose of voting at the General Election, on October 20th, 1918, no person shall be entitled to vote at any of the above elections unless he registers on or before the above dates. You may register with the County Clerk or any of his deputies.

J. H. WELLS,
County Clerk of Contra Costa County.

The following named persons are Registration Deputies:

A. C. Paris, Chief Deputy, City Hall, Richmond.

COMFORT AND ECONOMY SPELL HAPPINESS IN THE HOME

With a Gas Range and Water Heater in your home the fuel question becomes a solved problem.

Fuel is always ready and right at your stove. A good Gas-Range means comfort and economy in your home work.

Many dealers are displaying Gas Ranges—Most are offering liberal terms of payment.

Investigate. We shall be more than pleased to help you in deciding.
